# ABOUT DATANOVA HOLDINGS

Mount Tibrogargan, Glass House Mountains

ACKNOWLEDGEMENT OF TRADITIONAL OWNERSHIP DATANOVA HOLDINGS RESPECTFULLY ACKNOWLEDGES THE TRADITIONAL CUSTODIANS OF THIS LAND AND PAY OUR RESPECTS TO ELDERS PAST AND PRESENT.

IT IS OUR MISSION TO PROVIDE ORGANISATIONS WITH PREDICTABLE, BUSINESS-FOCUSED SOFTWARE SERVICES THAT OPTIMISE OPERATIONS, MANAGE RISK AND DELIVER MEASURABLE BUSINESS VALUE TO OUR CLIENTS.

We provide Australian and New Zealand Service Providers with trendsetting cloud-based Software Solutions to manage effectiveness and compliance under Disability, MyAged Care, NDIS, Foster Care, Housing, and other Australian Social Services.

Our systems provide the most actionable data and insights into the industry and make this data available to our clients.

We improve outcomes, operate efficiently, and meet today's clients' expectations by ensuring existing requirements are explicitly understood before the commencement of any work and then soliciting feedback to ensure continuing

and complete satisfaction with the services provided. Build a mutually profitable relationship with our customers, ensuring their long-term success by understanding their needs and the needs of their participants, consumers, clients and families.

Driving continual improvement and innovation based on efficient business processes, well-defined measurements, best practices, and client surveys. Develop staff competencies, creativity, empowerment and accountability through appropriate development programs and show strong management involvement and commitment.

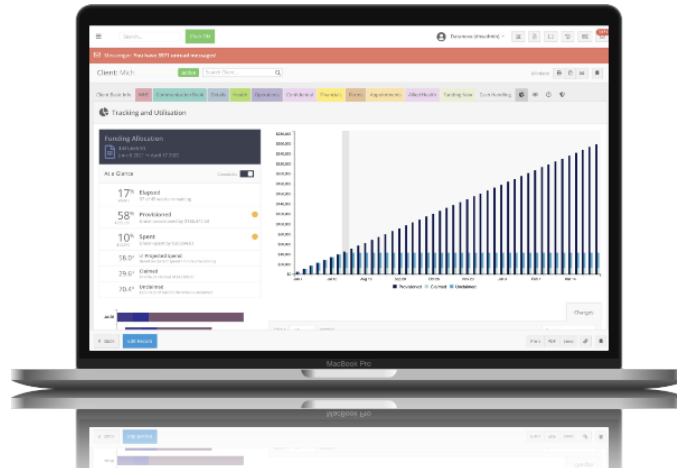

# MEET THE FLOWLOGIC FAMILY

Flowlogic Family: **SYSTEMS** that provide client management, financial data and reporting tools and our **PEOPLE** to support and improve your decision-making process.

Change is constant. How will organisations update their systems to account for additional services, changing programs, new regulations, new market opportunities, and the continuous push for improved efficiency? Meet FlowLogic a whole flexible business solution, to remain competitive, adjust with the speed of change, stay compliant, and to support flexibility. FlowLogic family has proven itself capable of delivering the business agility required to evolve and grow in the new world of constant market change.

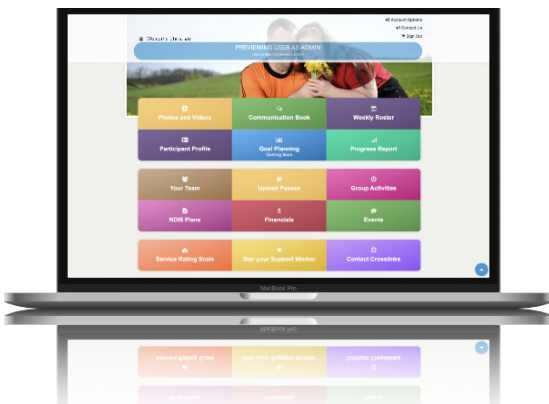

# WINNER OF THE 2021 AUSTRALIAN ENTERPRISE AWARDS FOR BEST DISABILITY SOFTWARE

## FLOWLOGIC

A software package that offers a complete suite for your participant management. Over the last 3 years, we have worked closely with over 100 NDIS Service Providers who helped to make this a one-stop-solution for the NDIS.

## FLOWPOINT

A cloud-based client self-service Portal, optimised for FlowLogic and preloaded with 12 modules from roster display to star rating your staff that will help you improve outcomes, operate efficiently and meet the expectations of today's clients.

## DATA CAPTAINS

Data Captains deliver a proactive, disciplined methodology to establish and manage acceptable levels of maintenance service. By providing outstanding service and product quality aiming for long-term success and sustained improvements.

# MEET FLOWLOGIC

## SIMPLIFY COMPLEXITY AND MAKE SIMPLICITY EFFECTIVE!

To prevent wasted time and resources, FlowLogic reduces administrative effort effectively allowing staff to focus on the support of their consumers/participants empowering their ability to achieve the goals and outcomes giving your organisation a competitive advantage.

FlowLogic's user centric interface was developed with simplicity, ease of communication and user effectiveness in mind, thus allowing businesses to focus on the quality of the information staff are entering and to help improve overall performance and accountability.

FlowLogic empowers organisations to not only perform these required tasks, it also allows them to report, analyse and act upon system alerts preventing possible shortfalls in business awareness.

## Disability Care Scheduling, Billing and Integrated Payroll Solution

Manage your client's care journey from beginning to end with fully integrated home care scheduling, billing, payroll and reporting in a single, configurable solution. Flowcare facilitates data driven decision making and intake work flow management which enables optimal conditions with respect to the financial, social, clinical and spiritual needs of potential consumers.

### Multiple views

There are multiple scheduling views to assist with efficient and strategic scheduling:

- Consumer schedule (day, week, month)
- Staff schedule (day, week, month)
- All client daily schedule
- All staff daily schedule

Flowcare's easy-to-use form builder you can effortlessly reproduce electronic versions of your paper or legacy forms and leverage rich media functionality such as pictures, signatures, and dynamic fields.

Configure documentation for high levels of client acuity such as wound care, infusions, and medical reconciliation.

Providing medicine information to staff with with sending alerts for drug interactions and their severity. Our build-in smart workflow engine will manage many of your facility activities. Remotely control of Medication administration for your consumers with Flowcare our handcrafted cloud-based technology and is compatible with all devices.

## FLOWLOGIC FAMILY FACTS

### 3 FLOWLOGIC FACTS

Currently, you can find a number of Australian software providers offering a set of functionality specific to the NDIA requirements. It will depend on which software vendor you chose to what additional software you may need. Datanova is proud to be one of the first organisations to bring an NDIS software package to the Australian market. Over the last 3 years, we have worked closely with over 100 NDIS Service Providers who helped to make this a one-stop-solution for the NDIS service providers.

### 4 THIRD PARTY INTEGRATION

Flowlogic, an architecturally designed to integrate FlowLogic into all major software packages.

Current FL software Integrations: API access MYOB, XERO, IMS, NDIA (export of ready to read and upload files), SAGE, WHOLESALE SMS, CLICKSEND, Microsoft 365. NDIA direct access to Proda is coming this 2021 with no uploads or downloads required.

# MEET FLOWPOINT

A PORTAL PRELOADED WITH FUNCTIONS TO ENGAGE AND SELF-SERVICE YOUR PARTICIPANTS AND CONSUMERS.

Connect with your consumers, participants, families and guardians providing honest, high quality personalised services with engaging web technologies to create new opportunities and to extend your existing business capabilities with our self service client portal.

FlowPoint lets your consumers, participants, families do all of this from one single interface, it is your customer's one-stop-shop for all support activities. Build truly automated end-to-end processes that help businesses focus on what matters most: making every customer relationship extraordinary.

## STREAMLINE SELF-SUPPORT & IMPROVE CUSTOMER SERVICE AND SUCCESS

FlowPoint is optimised for FlowLogic and Flowcare, with key functionalities including view upcoming roster shifts or appointments, accessible progress notes, property portal, complaints and feedback. Another competitive edge of this easy-to-use consumer/participant portal for goal planning and tracking.

Your customers will be empowered to exercise choice and control and access a wide range of mainstream and community-based support, both formally and informally. This will require greater connectivity, integration, and collaboration between suppliers across all market segments.

- Self-care access to real-time information
- Share and exchange relevant documentation e.g. welcome packs, Onboarding Service agreements, roster shedule etc
- Extend participant/consumer support services without recruiting further staff by allowing to raise issues and track support tickets
- Improve access to invoices and quotes
- Access to statements and online payments
- Access to roster, notes, goals and dashboard
- Online signature collection works on touchpad, mouse, phone, tablet or other mobile device
- Display financial funding information
- Real-time goal and outcome reports
- Accurate, real-time view of balances etc
- SMILEY system to rate your service

## FLOWLOGIC FAMILY FACTS

### 5 WEBFLOWS

**Recruitment, Feedback, Complaints and Referrals direct data flow from your website.**

Recruitment is a very time consuming function of HR. Webflows will collect all applicant data including documents directly into Flowlogic from an online form published on your website. Assisting HR professionals by integrating the management of employee data directly into your Flowlogic instance by capturing all data by the applicant.

Similar process for feedback, complaints and referrals. Eliminate data duplication and automate processes.

### 6 WORKFLOWS

Our smart workflow engine is an automation tool known for its ease of use and will manage many of your organisation activities. The workflow automation engine can help you build approval-based workflows, and optional notifications for every process via sms, email or the integrated internal messaging system.

# MEET THE DATA CAPTAINS

## FLOWLOGIC POWERED BY DATANOVA DATA CAPTAINS

Our Data Captains deliver a proactive, disciplined methodology to establish and manage acceptable levels of maintenance service. Only by providing outstanding service and product quality will we achieve our aims of long-term success and sustained improvements.

Datanova's Data Captains take care of traditional administration tasks, new features set up, customising Flowlogic(not development), training users, and "ready to use" new features that become available with each Flowlogic update. We commit to keeping scheduled monthly appointments, run workshops and work with you to make sure your FlowLogic system is healthy and up-to-date. Data Captains manage all development projects and tasks for your organisation. Data Captains are thoroughly familiar with the customisation capabilities of Flowlogic and Flowpoint and are responsive to your staff and all users.

# TURBO-CHARGE FLOWLOGIC WITH YOUR PERSONAL DATANOVA'S DATA CAPTAINS

Our Data Captains are a team of highly trained and qualified, Digital Business Solution Architects with a great wealth of experience in the sector to develop Flowlogic at the highest level and to achieve new levels of innovation—for you and your organisation. Understanding what works and what does not is critical, both during the deployment and over the long term, below are some highlights of the Data Captain service.

## Proactive Monitoring

Proactively monitor Flowlogic implementation and post-implementation, identify areas of improvement, recommend courses of action, develop best practices, and create an improvement plan.

## Persistent Administration

Ongoing best practices for administration, comprising unique tips and tricks for the system, analytics, workflow, health checks and financial forecasting. Pitfalls to avoid, and actionable ideas to improve how your organisation uses Flowlogic.

## Ongoing Maintenance

Assist with on-going maintenance, show new features, working on enhancements and how to manage your programs, services and outcomes using the latest and greatest technologies. Comprehensive webinar sessions to ensure high end-user adoption.

## Measure Adoption

A measure of adoption is based on a defined set of key performance indicators (KPIs) that can be pulled from the system. Ensure desired behaviours and an understanding of adoption.

# FLOWLOGIC FAMILY FACTS

## 7 DATA SECURITY

All our data is stored in the Amazon cloud, an IRAP certified data center in Sydney. AusGov has moved and endorsed that data center for compliance and is recommended as a data hosting solution to Australian Service Providers and Software companies.

## 8 OUR PLATFORM

Flowlogic, an architecturally designed Cloud Cluster Platform, runs on AWS (Amazon Web Services), and build on the LAMP (Linux, Apache, MySQL, PHP/Perl/Python) providing high availability and load balancing making your Flowlogic instant fast and secure.

## FLOWLOGIC FEATURES

YES

Integration to use Push Notification for Workflows, Participants/Consumers and Staff			✓
Launch of widgets shop to design dashboards and to allow API access to third parties			✓

# OUR AGILE APPROACH

## 01 Business analytics

### MILESTONE 1

Introduction workshop via webinar to go through the onboarding procedure by your Data Captain with all stakeholders involved to evaluate business needs, develop an intimate understanding of operational complexities and assist in developing a implementation timeline plan and training requirements.

The implementation timeline will be designed by the Data Captain with the approval of your nominated project team. Items that will be identified are:

- planning, schedule
- training, solution definition, architecture and design
- installation and configuration needs
- facilitation of integration needs

## 02 Offsite preconfig

### MILESTONE 2

Configuring of the FlowLogic system to meet your business needs and as per requirements decided in the previous phase MILESTONE 1. Import required NDIA items, staff and client data, assigning group and permissions.

Datanova allows for one revision with the staff and client data setup and the import of any additional imports outside of this need to be quoted separately.

Setup Flowlogic to mirror organisational structure according to services and sites delivered by the client.

If applies identify implementation phase 2 and additional forms or workflows for the system.

**Important Note: For providers over 300 users please consider a complete end to end implementation with project management, project plan and a dedicated project team. Onsite workshops prior to system configuration, training, additional pool hours, system reviews and data health checks and enterprise post support.**

## 03 Onsite/off site delivery

### MILESTONE 3

If travel is not restricted three days onsite visit by your Data Captain for finalising setup, complete staff training and identify if customisation is required .

- Training and working with key stakeholders to achieve expert setup and establish admin data champions within the organisation
- Identify if any coding and non-coding customisation requirements and liaise with the client and Datanova on development items.

If applies identify implementation phase 2 and additional forms or workflows for the system.

## 04 Post setup and support

### MILESTONE 4

The initial implementation will focus on creating the foundation which is required to capture and analyse data through the system to provide a market advantage and new insights for their business.

The proper use of Flowlogic and FlowCare enables and facilitates this outcome. As Data Nova is focused on the long term strategy, our approach is to establish best practice foundations from the beginning and get it right the first time.

This includes 2 x 1 hour off site reviews and admin support webinars for a 3 month post support period and is established via teleconference with the admin data champions

06

---

Datanova Holdings is an Australian based software development and service based company focused on delivering the best and most cost-effective solutions to our clients

---

Winner Of The 2021 Australian Enterprise Awards For Best NDIS And Aged Care Software.

With over 12 years of development experience we provide Cloud Solutions for NDIS, My Aged Care, Jobactive and Social Services in Australia. Our innovative architecture ranked as a unique market solution will effectively minimise administration costs and maximise service deliverables and providing you with a 360-degree view of your participants or clients to stay compliant meeting the expectations of today's market.

To create high-quality software that is innovative and unique is a process that takes time and resources. When our clients accept a relationship with us, they get brilliant results in return. However, the road to an excellent final product is marked by multiple milestones. Step by step we go through our proven process, from the initial concept of the user interface and system architecture, through to multiple prototyping cycles, the implementation and finally the quality assurance processes. At the end of this process stands our final goal: an outstanding piece of software that we can deliver to our respected clients.

# WHY CHOOSE DATANOVA HOLDINGS

## OUR APPROACH TO SUCCESS

It takes more than technical expertise, experience, or a global team of talented people to get results. Our initial approach into any partnership is to establish great collaboration from start to finish. This allows us to gain insight of our partners needs and ultimately assist them to the road of success.

Technology can  
be intimidating:  
We make it simple.

Our team is smart,  
passionate, and  
creative, and our  
integrity and  
commitment are  
unmatched.
